

## Acquisition Manager in Singapore

We are an independent, family owned and controlled group of trust companies operating in several jurisdictions, expanding our business in the Far East (see our homepage: [www.jeeves-group.com](http://www.jeeves-group.com)). For our acquisition we are looking for a competent business developer.

### **Description**

The position involves developing, coordinating and carrying out our acquisition programme concentrating on financial intermediaries. He/she is responsible for identifying new business accounts and providing recommendations for the best objectives involved in the program.

### **Education/Experience**

A successful candidate possesses a Bachelor or Masters Degree in finance, law, business administration or equivalent business knowledge and several years of experience in the trust business.

### **Skills/Personal qualities**

Proficient in computer programs, excellent written and oral communication skills, superb interpersonal, managerial and administrative abilities. Capable to multitask, meet deadlines and perform without supervision.

The applicant must be a talented arranger, keeping schedules and documentation intact, capable of assessing progress of assigned projects, as well as acting in a financially responsible manner.

He/she works with enthusiasm and is committed to make an impact with a positive attitude and a result orientated approach. The candidate is willing to search for and capture new business opportunities in a start-up situation.

### **Specific requirements**

The assignment requires a commitment for a minimum of three years.
